SUSPENSION

Made In America

Performance **POLYURETHANE** Components

ROCK-FLEX Suspension Systems represent an entirely new approach to lifting a Jeep Wrangler. These new ride height adjustable suspension systems maximize performance from the **FACTORY SUSPENSION**, transforming the factory suspension into something with the off-road performance generally found with much more expensive and complicated lift kits for a fraction of the cost, while delivering the street performance you've come to expect from **ENERGY SUSPENSION**.

ULTIMATE SYSTEM

Huge gains in articulation and wheel travel commonly found with much more complicated lift kits. Also greatly improves handling and on-road stability.

BENEFITS

- Allows for the use of a long-travel shocks with **FACTORY SUSPENSION**
- Off-Road performance generally associated with much more complicated lift kits
- Correct suspension geometry through entire suspension cycle
- Ride height adjustable from 1.5 to 2 inches
- Replaces all OE Rubber with **Hyper-Flex™ Performance Polyurethane**
- Improved on-road handling
- Available for Rubicon and Sahara/Sport models

PERFORMANCE SYSTEM

Complete ride height adjustable suspension system provides proper suspension geometry with improved off-road performance and on-road stability on a budget

BENEFITS

- High clearance shock brackets maximize wheel travel from factory shocks
- Off-Road performance comparable to many traditional lift kits
- Correct suspension geometry through the entire suspension cycle
- Ride height adjustable from 1.5 to 2 inches
- Replaces key OE rubber components with **Hyper-Flex™ Performance Polyurethane**
- Factory ride quality and handling

NEW ROCK-FLEX TECHNOLOGIES FOR THE 2018+ JEEP WRANGLER JL

ROCK-FLEX FRONT LCA CASTER CORRECTION BUSHING SET

- CREATES FACTORY ADJUSTABLE CONTROL ARM
- 25% IMPROVED ARTICULATION VS FACTORY BUSHINGS
- IMPROVED ROAD-HANDLING AND DURABILITY

ROCK-FLEX CONTROL ARM BUSHING SET

- 25% IMPROVED ARTICULATION VS FACTORY BUSHINGS
- IMPROVED ROAD-HANDLING AND DURABILITY
- MAINTENANCE FREE, EASILY REBUILDABLE

ROCK-FLEX ADJUSTABLE PROGRESSIVE BUMP-STOP SET

- DESIGNED FOR OFF-ROAD ABUSE
- SMOOTH ENGAGEMENT
- HUGE IMPROVEMENT IN DURABILITY VS OE
- ADJUSTABLE SPACERS FINE TUNE WHEEL TRAVEL FOR LARGER TIRES

1.5-2 INCH ADJUSTABLE COIL SPRING SPACER SET

- ADJUSTABLE FROM 1.5 TO 2 INCHES
- ALLOWS FINE TUNING FOR TIRE SIZE & RAKE
- DURABLE HYPER-FLEX™ POLYURETHANE CONSTRUCTION WON'T DISTORT OR RATTLE

PART NUMBERS

2.3110	ROCK FLEX-CONTROL ARM BUSHING SET
2.3111	ROCK-FLEX CASTER CORRECTION LCA BUSHING SET (PAIR)
2.3115	ROCK-FLEX ADJUSTABLE PROGRESSIVE BUMP-STOP SET
2.6115	1.5-2 INCH ADJUSTABLE COIL SPACER SET
2.9110	SMART BAR FLIP HANGER

SMART BAR FLIP HANGER

- ALLOWS SMART BAR TO BE ROTATED OUT OF THE WAY FOR HIGH CLEARANCE BUMPERS
- REQUIRES NO ADDITIONAL HARDWARE OR MODIFICATIONS TO SMART BAR
