CUSTOM DESIGNED GARAGE INSURANCE FOR THE AFTERMARKET

Shop owners understand better than most that owning a business comes with varying levels of risk. Choosing the right insurance agent matters when shop customers allege damage was caused to their vehicle during repair, or faulty workmanship caused bodily injury. Protection is also needed in cases of fire or theft, as well as employee injuries.

Alliant Insurance, endorsed by SEMA, offers insurance policies specifically crafted for specialty equipment industry shop owners—truck centers installing suspension systems to street rod builders. Alliant Insurance provides its Installers Edge program to shops with these key coverages:

- Garage Liability
- Property (buildings, contents & business interruption)
- Non-Owned Auto (driving customer cars)
- Garage Keepers (care, custody and control of customers' cars)

As an industry insider, the staff at Alliant understands your customers' needs and the type of work performed. To obtain a quote through the Installers Edge program and custom tailor a policy that protects your livelihood, call 800-390-9099 or visit www.seiainurance.com.

Alliant

Installers Edge is a Specialty Program of Alliant Insurance Services Inc., License #0C36861 and an industry insider and manager of SEMA's member services program.
